To Whom It May Concern

A Testimonial for :-

**Paul D'Angelo
Legal Practitioner**

I was introduced to the above legal practitioner by my accountant for the purposes of preparing a specialised employment agreement, specialised because it was to lead to a company stake holding.

Being of a complex nature the agreement was drafted based on the typical inclusions and our company specific requirements in a blended document that captured what we need to address and what could be legally enforced.

I was very pleased that the document was drafted quickly to capture the essence of the situation ready for my initial meeting and then the revision was also done quickly and subsequently became the document we used.

Paul was very accessible or returned calls promptly and thus was easy to work with to produce the work.

I can recommend his firm and would instruct him again as the need arises.

All the best

Steve Griffiths
